GREEN CAMPUS INITIATIVES ON CAMPUS

I. RESTRICTED ENTRY OF AUTOMOBILES

Parking NISH only allows passenger vehicles inside the campus ranging from two wheeler to passenger buses. Construction vehicles are allowed only during the time of construction. Also, vehicles are restricted in the area where students, especially who are deaf, are more likely to gather around on campus.

Pedestrian-friendly Pathway Image 2

IV. BAN ON THE USE OF PLASTICS

As part of the Green Protocol, the campus follows a no-plastic policy. Instructions are given to staff and students to not use any single plastic substances for the conduct of programmes. The Green Protocol Compliance Committee holds the responsibility to make the campus plastic-free and makes posters and organizes awareness sessions on a plastic-free campus. Various programmes are conducted for students and staff to get a better awareness of the same.

Some of the images of the programmes conducted are given below.

Date	No of students Participated	Activity	Description	
24/4/2018	100	Talk by Dr. Santhosh George on "How to save Seeds	Students and staff require a firm understanding of the necessity of seed conservation. As a part of this conducted a talk on this subject. We Are progressively improving our garden if we preserve seeds from our best plants each year. Seeds in the future will be better suited to grow in your specific climatic and soil circumstances. More plants in your garden will be permitted to blossom if you save seed.	
02/05/2018	200 Staff and students	Talk by environment officer" Plastic-Free campus". As A part of Plastic free campus	Plastics, as a hazardous element in civilization, pose a significant threat to humanity's and other beings' survival. Because of plastics, the environment is being contaminated at a never-before-seen rate, sparing no mediums. As a result, it is becoming a crucial obligation of every person of our nation to not only "Say No to Plastics," but also to raise community awareness. As a result, NISH will adopt a phase-by-phase ban on the use of plastics on its campus, focusing on single-use PLASTICS.	
05/06/2018	200 Staff and students	Plant trees in campus as a part of environment day celebrations

06/06/2018	Staff and students	Waste Segregation and Management“ by suchitra mission	Waste management is an essential element of the campus infrastructure since it guarantees environmental and human health protection. It is not only a technological, but also a very environmentally sensitive subject. Waste management is intertwined with a variety of elements, including lifestyles, resource consumption patterns, awareness, and other cultural aspects.	
07/08/18	Staff and students	Training for using eco-friendly and reusable products.	As part of our plastic-free campus campaign, Bhoomitrasena and Gravity Club teamed up with them and conducted a one-day training and awareness event for NISH employees and students on the topic of "Reduce plastic, Save Nature." Hands-on instruction in the creation of cloth bags, such as fruit bags, ball bags, and T-shirt bags, is included in the curriculum. The cloth bags are in the style of key chains and are convenient to carry.	
03/10/18	Staff and students	a talk on "Community Cleanliness" by Dr.T.N Seema	A community cleaning discussion brings students together to clean, restore, and enhance public places or other locations that have been neglected, damaged, or exploited (such as vacant lots or abandoned properties). Parks, riverbanks, schoolyards, walkways, playing fields, and even parking lots may all be part of cleanup initiatives.	
06/06/2019	Staff and students	planting fruit-bearing trees

07/06/2019	100	quiz programme	Quiz competitions are always interesting and informative, which provide excitement among the students and also make them aware of the current environment matters. As a part of the world environment day, bhoomithrasena club initiated a quiz programme on 7th June 2019. It was a very informative and knowledge enriching competition for the participants along with the audience.
05/06/2020	Staff and students	planting fruit-bearing trees in campus	Planting as many trees as possible is the greatest approach to reduce global warming. We need to raise awareness among both staff and students to bring this problem to a wider audience. As a result, we must raise awareness about the need of planting saplings in order to make our campus green.
18/08/2020	100	conducted a biodegradable mask distribution camp in campus	"With more instances of masks being discarded improperly, it is critical to detect this possible environmental hazard and prevent it from becoming the next plastic crisis." so NISH distributed biodegradable mask in campus
